Comments:

• Performance for this contract during the preceding period was lower than would be expected in terms of performance metric, these numbers reflect the challenges of operating during a pandemic as well as during a period of staff transition at Next. The hiring of a new Next director, further establishment of staff, easing of pandemic restrictions, and continued implementation of additional outreach and social media strategies should lead to a performance increase.
• *This contract anticipated 60 carry-in youth who are not included in the new enrolled youth total. Expected performance does include the 60 youth who were carried-in from previous contract term.

Comments:
- While performance for this contract during the preceding period was lower than would be expected in terms of performance metrics, these numbers reflect the challenges of operating during a pandemic as well as transitions into establishing a new integrated youth system in Cowlitz County, as well as staff turnover in the emerging Cowlitz youth system. Performance will be improved after staffing in the county stabilizes, and greater cooperation is achieved between Equus Workforce Solutions and Goodwill Industries in Cowlitz County.
- *This contract anticipated 30 carry-in youth who are not included in the new enrolled youth total. Expected performance for 6/30/21 does include the 30 youth who were carried-in from previous contract term.

Comments:
- Performance in Wahkiakum county is low and is reflective of both pandemic conditions and limited connection between the subcontractor and local partners. WSW will make coordination with this region a priority and assure that services are engaged in the new contract term. Equus workforce services intends to devote more resources to the Wahkiakum service area in the new contract term.

Enrollments have picked up due to increased access to workforce services via LinkedIn Learning + CareersNW investment offered via a virtual career coach. Further, increased individuals have sought out WorkSource services as the economy continues to open and employment opportunities increase. Employment placement continues to lag due to an increased focus on employment with wages 250% above the Federal Poverty Level (FPL).

Comments: SummerWorks has made great performance gains despite the challenges of responding to Covid-19, and the complicating factors derived from DVR's contract management style. At end of program in Sept 2021, WSW is likely to have at least 80% of performance completed for each line item, and close to 90% for the core services of the program (work readiness class and work-based learning). Given that this is a pay for performance contract, it is important to note that incomplete performance will result in loss of potential income for WSW.

* Internships are still in progress as of August 2020, so a final number of completed internships is still TBD
**129 youth are to be placed in internships. Attrition on the program may lead to this final number being slightly lower at end of program

Given that this is a pay for performance contract, it is important to note that incomplete performance will result in loss of potential income for WSW. Comments: SummerWorks has made great performance gains despite the challenges of responding to Covid-19, and the complicating factors derived from DVR’s contract management style. TUM mentality has completed 100% of its services for the current contract term. Note that only the 40-Hour Work Readiness Class is a relevant billing category for TUM, of which TUM provides 3 hours of content per youth. Also note that the TUM contract can serve a maximum of 100 youth over the life of the contract.

Aug 2019 – Feb 2022

Contract Budgeted Funding
Personnel $332,229
Operating $31,771
Direct Participant $10,000

Contract Notes
• Staff transition has caused spending and performance challenges.
• Positions have been filled.

Comments:
Covid-19 and ongoing mitigation of health and income risk continue to challenge community partners to use and add safe alternatives to physical delivery of services to customers, promote Thrive, conduct outreach, and enroll participants. Incremental decrease of pandemic social mitigation, reopening of Highlands Community Center and completing restaffing of 2 community organizer positions has increased capacity to serve and engage residents in the priority neighborhoods, including resident access to computers, WiFi and facilities. Expectation is that increased FTE and facility capacity will positively contribute to building enrollment pipeline and conversion ratio.

Comments:
Performance targets were unmet due to variety of factors including the extended nature of the pandemic, health & safety mandates that impact services to customers, and significant digital inequity barriers among underserved, priority populations. These have created challenges for EcSA outreach, recruiting, and enrollment via electronic, virtual platforms.

**Comments:**

Spending for the EET program finished lower than anticipated at the end of June 2021. While staff have developed a strong working relationship with CCJC, the Justice Center had trouble identifying referrals to send to the program. Likewise, the ongoing pandemic created challenges to working with a highly barriered population virtually. CCJC has executed a new contract with WSW, which was executed in July. Equus will reprise their role as subcontractor.

Comments:
WSW has invested fully in the position in good partnership with WSU-V. The modification goes till June 30th, 2022, and monthly meetings have begun between the WSW and WSUV team to ensure a strong refresh of the work. During Q2, incumbent System Liaison vacated position (April 2021) and WSUV team was unsuccessful in filling position via this search; however, in Aug 2021, position has been filled internally.
